Instructions and Information:

The chart on Page 1 of this document displays how to manually correct identified inaccuracies in specific benefit line items on the Plans & Benefits template to more accurately reflect EHB coverage requirements of the Ohio benchmark plan. Only specific benefit line items requiring correction are listed on the chart.

Please note that the last 4 benefit line items listed are benefits covered in the Ohio benchmark plan that are missing from the current Plans & Benefits Add-In file. Those items must be manually added to the Plans & Benefits template using the "Add Benefit" function.

Appropriate corrections indicated must be made to all benefit line items listed in the chart for each benefit package submitted on the Plans & Benefits template.

Please carefully consider the Notes and correction scenario information provided below in determining appropriate corrections to be made.

Notes:

⁽¹⁾ "Yes" indicates that the benefit line item is autopopulated to the Plans & Benefit template when the "Refresh EHB Data" macro is run. "No" indicates that the benefit line item as listed must be manually added to the Plans & Benefit template using the "Add Benefit" function.

⁽²⁾ Infertility and voluntary family planning services are required benefits under state law **for HMO plans only** (per ORC § 1751.01(A)(1)(h)); therefore, coverage of these benefits would normally be considered "Above EHB" for non-HMO plans.

⁽³⁾ When adding these benefits (the four benefits which fall under Scenario B) to the Plans & Benefits template please, 1) add them in the **exact** same order as they are listed in this document, **and** 2) start so that the first of the four is listed **directly under** "Off Label Prescription Drugs," (i.e. "Vision Correction After Surgery or Accident" should appear on row #130 of the "Benefits Package Tab". The remaining three should appear in rows 131-133).

A	The state benchmark plan DOES identify a given benefit as an EHB and/or State Required Benefit and the benefit DOES appear on the Plans & Benefits Template, but the "Is this Benefit Covered?" field is BLANK.
B	The state benchmark plan DOES identify a given benefit as an EHB and/or State Required Benefit and the benefit DOES NOT appear on the Plans and Benefits Template.
