

National Trivia Day reminds us that knowledge about Social Security empowers you and prepares you for retirement. Remember, the more you know about Social Security, the more control you have over your bright future.

1. What is the average number of years someone has paid into Social Security once they start collecting disability benefits?
 - A) 2
 - B) 7
 - C) 13
 - D) 22

Because the Social Security Act sets out a strict definition of disability, our beneficiaries are among the most severely disabled people in the country. We provide modest benefit payments to workers who contributed into the Social Security trust fund before becoming disabled. The average disability beneficiary today paid into the disability trust fund for 22 years before they began receiving Social Security disability benefits.

2. At what age can I begin receiving Social Security retirement benefits?
 - A) 62
 - B) 65
 - C) 67
 - D) 70

The answer to this question is not the same for everyone. Depending on when you were born, your full retirement age will be between 65 and 67. You can draw benefits as early as 62, but you will receive a lesser benefit. For more details and a handy chart, visit www.socialsecurity.gov/planners/retire/retirechart.html.

3. How much money can I earn and still receive Social Security disability benefits?
 - A) \$500 per month
 - B) \$750 per month
 - C) \$1,090 per month
 - D) None

A worker who is disabled can earn up to \$1,090 per month and still receive benefits. In 2016, you can earn up to \$1,130. If the worker is blind or has work expenses, this amount is higher. More information about working while disabled is available at www.socialsecurity.gov/pubs/EN-05-10095.pdf.

4. Who receives the largest annual share of Social Security benefits?
 - A) Survivors of deceased workers
 - B) Disabled workers and their families
 - C) Retired workers and their families

The answer is C. About 39.5. Of the nearly 60 million people who receive retirement, dependent, disability, and survivors benefits in 2015, the largest share went to retirees and their families, totaling \$53 billion each month. We also paid \$6.7 billion dollars in survivors benefits each month and \$10.5 billion dollars in disability benefits each month in 2015.
