

Annual Report | 2005

## Message From Director **Ann Womer Benjamin**

Thank you for taking time to read the Ohio Department of Insurance 2005 annual report. The report summarizes the Department's regulatory duties and highlights my third year as Director with just some of the Department's many accomplishments. I am proud of the level of professionalism in which Department employees conduct themselves. We work tirelessly for Ohioans to protect insurance consumers and to foster a dynamic insurance marketplace which benefits all Ohioans.

In 2005 we continued to monitor the gradual stabilization of medical liability insurance rates. Rates followed an encouraging trend of decreasing rate increases. The Ohio Medical Malpractice Commission—which I chaired—issued its final report in April to the Ohio Legislature recommending curative measures to help stabilize rates. In addition, the Department—through its senior program called OSHIIP—has been the state's lead agency for Medicare prescription drug information and assistance. Lastly, we took action to help make health insurance more affordable for small business, an effort that will continue into the next few years. Please take a moment to read about this accomplishment and others in the “Addressing Major Issues Impacting Ohioans” section on page 12.

I hope you find this report beneficial. If you have any questions, please call the Department's main number at 614-644-2658 or our consumer hotline at 1-800-686-1526.

*Director Womer Benjamin, an experienced lawyer and former four-term member of the Ohio House of Representatives from Aurora, was appointed by Governor Taft in January 2003. For more information please view the Director's biography on the Department's web site at [www.ohioinsurance.gov](http://www.ohioinsurance.gov).*

**Ohio Department of Insurance**

The Ohio Department of Insurance is one of the state's largest consumer protection agencies. The Department has been in existence since 1872 and is a non-general revenue fund agency that employs approximately 260 people and comprises 10 divisions.

The Department licenses about 1,700 insurance companies, more than 200,000 agents, and more than 15,000 insurance agencies, and monitors the financial solvency of the Ohio insurance industry.

The Director of the Department (also referred to as "the Superintendent") is appointed by the Governor and also serves as the state's insurance liquidator. A Deputy Director, Executive staff and Assistant Directors, representing each division, support the Director's oversight responsibilities.

## Department Divisions

### **Executive:**

Oversees the operations of the entire Department.

### **Consumer Services:**

Provides direct service to Ohio insurance consumers.

### **Market Regulation and Licensing:**

Closely watches and investigates the business practices of insurance companies and licenses agents and agencies.

### **Fraud and Enforcement:**

Investigates agent and agency misconduct and consumer insurance fraud.

### **Property and Casualty:**

Reviews rates, policies, products and other filings of insurance companies.

### **Life, Health and Managed Care:**

Reviews rates, policies, products and other filings of insurance companies.

### **Financial Regulation Services:**

Monitors the financial solvency of insurance companies licensed in Ohio.

### **Information and Technology:**

Assists the Department in achieving its regular oversight responsibilities through technology.

### **Legal Services:**

Handles regulatory transactions and provides legal assistance to other divisions in the agency.

### **General Services:**

Oversees personnel, financial and general operations of the Department.

# Executive

The Executive staff oversees the operations of the entire Department. Working as a team, the Director, Deputy Director, Policy and Legislation and Communications serve as the Department's official link among federal, state and local governments, insurance companies and agents, the media and Ohio insurance consumers.

## Policy and Legislation

Policy and Legislation develops the Department's policy on all insurance matters and represents the Department before the Ohio General Assembly.

Policy and Legislation works regularly with state and federal government officials, insurers, insurance trade groups, agent trade groups, other professional interest groups and consumers to ensure that state insurance laws and regulations promote a healthy and fair insurance market in Ohio.

Together with the Director, the Policy and Legislation staff prioritizes the Department's legislative agenda, determining key issues based on the number of stakeholders, impact on the insurance industry and consumers and the urgency of the legislation. This can include drafting insurance-related legislation, writing rules to implement the Department's regulatory authority and coordinating policy initiatives with other state departments of insurance.

## Communications

Communications directs and coordinates all aspects of the Department's internal and external communications.

Communications manages relationships with the media; writes and distributes news releases, columns and consumer alerts; prepares speeches and presentations; oversees the content and design of the Department's web sites and publications; coordinates community outreach efforts; and educates the general public, major stakeholders and opinion leaders about the Department's services and activities.

# Financial Regulations Services

Financial Regulation monitors the financial solvency of insurance companies licensed in the state of Ohio. The National Association of Insurance Commissioners (NAIC) accredits the Department, which regulates about 1,700 insurance companies.

Financial Regulation reviews financial statements of every company licensed in Ohio and oversees complex transactions that can include billions of dollars in managed assets to ensure that insurance companies have enough money to pay claims filed by consumers.

Financial Regulation closely monitors the financial condition of insurance companies doing business in Ohio by conducting

in-house analysis of financial statements and all other supplemental filings made by insurers. Financial Regulation also monitors insurers' statutory and solvency compliance on an ongoing basis and conducts periodic on-site field examinations.

The Department, by statute, examines insurers as often as the Director deems appropriate and requires that each insurer be examined at least once every five years. Financial Regulation also calculates domestic and foreign insurance premium tax owed to the state.

## Supervision and Rehabilitation of Insurance Companies

Ohio law requires Ohio domiciled insurance companies to file audited annual financial statements and unaudited quarterly financial statements with Financial Regulation Services. The law also requires Ohio domiciled companies to maintain minimum financial reserves.

The Department can place insurance companies experiencing financial difficulty under supervision. During supervision, the Director appoints a supervisor to oversee the financial affairs of the business, which is confidential under state law.

If the financial condition of an insurer becomes hazardous to its policyholders, creditors, or the public, the Director may publicly

petition a court to place the company in rehabilitation. If the court places the company in rehabilitation, the Director is appointed rehabilitator. The rehabilitator is granted full control of the company and its assets and administers the company subject to review of the court. Generally, rehabilitation is sought with the goal of reforming and revitalizing the insurer.

If efforts to rehabilitate an insurer are not successful, the Director may petition the court for a liquidation order, which, if granted, results in the assets of the company being sold, and the proceeds of the sale being distributed to the company's policyholders and other creditors, according to priorities outlined by state law.

## Guaranty Associations Protect Ohio Policyholders

The Ohio Insurance Guaranty Association, an organization of property and casualty insurers, and the Ohio Life and Health Insurance Guaranty Association, an organization of life and health insurers, were created by statute and are funded by assessments on Ohio-licensed insurance companies. If an insurer becomes insolvent and ordered to be liquidated by a court, the funds available through these assessments are used to pay the covered claims of the insolvent company owed to Ohio policyholders, subject to the limitations and conditions of Ohio law.

The guaranty associations represent the insurance industry's response to the public's need for safety and confidence in insurance products.

# Market Regulation and Licensing

Market Regulation and Licensing, which is comprised of Licensing and Market Conduct, monitors the business practices of insurance agents, agencies and companies.

## Licensing

Licensing issues licenses to insurance agents (and monitors their continuing education hours), insurance agencies, managing general agents, third-party administrators, reinsurance intermediaries, public insurance adjusters, viatical settlement brokers and surety bail bond agents. It also processes insurance company appointments of authorized agents.

Ohio was one of the first states to offer an Internet agent testing and licensing system, which allows applicants to submit applications on-line, complete fingerprinting and background checks electronically and receive a license within a few days.

The agent appointment process can also be completed on-line, allowing insurance companies to appoint an agent on a same-day basis. Also, agents can track their continuing education credits and status through the Department's web site at [www.ohioinsurance.gov](http://www.ohioinsurance.gov).

## Market Regulation

Market Conduct monitors insurers' compliance with Ohio insurance laws and regulations by examining those companies' business practices, such as underwriting, marketing and claims handling.

## Fraud and Enforcement

The mission of Fraud and Enforcement is to detect, prevent, investigate and assist in the prosecution of consumer and provider fraud relating to the business of insurance. Fraud and Enforcement investigates allegations of agent misconduct and scrutinizes applicants for agent licenses.

The Department frequently refers cases to local and federal law enforcement for criminal investigation. Types of insurance fraud include arson, staged accidents, medical billing, forgery, faked

deaths, homeowner/renter fraud, falsified disability, inflated claims and viatical fraud. Insurance agents are investigated for various types of misconduct such as misappropriation of premiums and misrepresentation. Agents who engage in such acts may lose their licenses or face other sanctions.

Insurance fraud costs Ohio consumers millions of dollars each year and leads to increased insurance premiums.

## Property and Casualty

Property and Casualty is responsible for the review of policy forms, endorsements, manual rules and rates for products marketed to Ohio consumers by Ohio licensed property and casualty companies.

Products reviewed include commercial lines (e.g. insurance for businesses – auto, general liability, professional liability including medical malpractice, property, crime, fidelity and surety) and personal lines (e.g. insurance for individuals and

families – auto and homeowners). The office also reviews title insurance, risk purchasing and risk retention group registrations, and notification forms and surplus lines quarterly reports.

Rates, by law, cannot be excessive, inadequate, or unfairly discriminatory and consumers must be able to understand the policy language. Actuarial standards of practice are used to determine whether rates are in compliance.

## Life, Health and Managed Care

Life and Health reviews the contractual provisions of all Ohio-licensed life and health and accident policies to ensure they are in compliance with Ohio and federal laws. More than 1,200 insurance companies are licensed to offer life and health insurance in Ohio. Along with policy and rate review, the office also licenses multiple employer trusts, alliances and health insuring corporations and accredits independent review organizations.

Life and Health verifies that rates are actuarially sound, values the reserve liabilities for domestic life insurance companies, and

ensures that contracts adhere to state and federal laws and regulations.

Managed Care is responsible for licensing and monitoring the activities of all health insuring corporations – also known as HMOs – operating in Ohio. It reviews rates, contracts, certificates of authority, major modifications and other pertinent filings submitted by HMOs. HMOs include managed health care programs for the Medicaid population and for state employees.

# Consumer Services

Consumer Services provides direct services to Ohio insurance consumers by answering questions, investigating complaints, organizing and coordinating a statewide counseling service for senior consumers and distributing educational material. Consumer Services includes both Consumer Services and the Ohio Senior Health Insurance Information Program (OSHIIP).

## Consumer Services

Consumer Services representatives assist Ohio insurance consumers on the telephone, through Internet communications, written correspondence, one-on-one meetings and community outreach activities. The activities include counseling victims at disaster assistance sites, meeting with insurance industry professionals, and conducting insurance fairs across the state. Representatives respond to inquiries regarding a wide variety of insurance matters and investigate insurance complaints.

## Ohio Senior Health Insurance Information Program (OSHIIP)

OSHIIP, funded in part by state funds and by a grant from the Centers for Medicare and Medicaid Services (CMS), was founded in 1992 to provide Medicare beneficiaries with free, objective health insurance information and one-on-one counseling. OSHIIP's speaker's bureau, hotline experts and trained statewide volunteers educate consumers about Medicare, Medicare Part D prescription drug coverage, Medicare Advantage options, Medicaid, Medicare supplements, long-term care insurance and other health insurance matters.

## Legal Services

Legal Services handles regulatory transactions, administers public hearings on agent and company license and enforcement issues, provides legal assistance to other divisions in the Department and supervises litigation.

The legal staff reviews corporate transactions filed with the Department, including changes of control, mergers, re-domestications, demutualizations and the investment activities of domestic insurance companies.

Support services to other Department divisions include assistance in drafting proposed statutes, amendments, rules and bulletins; providing legal advice on human resource issues; evaluating contract compliance; formulating department policies; administering public hearings; drafting consent agreements, reports and recommendations and orders for the Director's approval; and managing the Department's records retention program.

## General Services

General Services is comprised of the Fiscal Operations and Human Resources sections.

General Services administers several programs that benefit the health, safety and security of Department employees. Overall administrative services are provided in the areas of security systems operation and maintenance, and in the continual development of the internal auditing control program.

Fiscal Operations provides accounting and budgeting services. Fiscal Operations prepares the Department's budget, manages revenue, monitors expenses and payroll, administers grants and workflow for purchases and travel reimbursements, and deposits securities. In addition, it is responsible for the Department's inventory control, fleet management, and mail operations.

Human Resources directs and coordinates all personnel and labor relations activities. The successful performance of these duties attracts, develops, and retains quality personnel in a positive work environment that contributes to more effective and efficient operations. Activities include recruiting, selecting, hiring and training employees; monitoring EEO/AA programs; overseeing payroll processing and benefits for Department employees; administering the collective bargaining agreement; responding to grievances; mediating and arbitrating disputes; and developing human resource policy.

General Services is also responsible for facility maintenance and for providing space-planning and reconfiguration assistance, and for purchasing non-computer related equipment.

# Information and Technology

Information and Technology assists the Department in achieving its regulatory oversight responsibilities through the application of technology. Information and Technology designs, implements

and maintains computer programs and applications and maintains the technology infrastructure that assists the Department in achieving its goals.

## Internet Services

The Department's web site offers consumers, insurers, and agents the luxury of online services 24-hours a day.

- The Department's web address at [www.ohioinsurance.gov](http://www.ohioinsurance.gov) is recognizable and easy to remember.
- More than 24 consumer guides and brochures are available on the web site.
- Visitors to the site can file complaints and track the complaint status online. Visitors can also access company premium information and complaint ratios.
- The site features an agent locator application to allow consumers to search for agents/agencies by name, city, and zip code. It also provides a way to verify that an agent is licensed to sell insurance in Ohio.
- The site includes a county-by-county listing of all Health Insuring Corporations (HIC) authorized in Ohio, which updates instantaneously when there is a change.
- Financial information on Ohio licensed insurance companies is also available.
- Insurance companies and insurers can complete their required regulatory paperwork via the Department's web site. The web site contains more than 130 Microsoft Word and PDF forms, which make the required regulatory paperwork process effective and efficient. Many of the forms are automated, allowing information to be directly sent to the Department.

# Ohio Liquidation Office

The administration of all Ohio domestic insurance company liquidations is done through the Ohio Liquidation Office. The Chief Deputy Liquidator, who is appointed by the Director, manages the Liquidation Office. The Liquidation Office's operations are primarily funded by the assets of the insolvent companies as administrative expenses of the companies' liquidations.

The process of liquidating an insurance company begins when, upon request of the Insurance Director, the court orders a company to be liquidated. Under the Ohio insurance statutes, the Director is appointed as the Liquidator and charged with liquidating the assets of the insolvent insurer to maximize the ultimate distribution of those assets to policyholders and creditors. Those efforts include protecting and liquidating assets such as bank accounts, stocks and bonds, collateral, letters of credit, receivables, earned premiums, reinsurance, physical assets

(desks, chairs and computers) and real estate holdings. Often this is also accomplished through preference recoveries, reinsurance commutations and, when appropriate, lawsuits against company officers, directors or other parties.

Once the assets have been collected, the Liquidation Office reviews the claims of both policyholders and other creditors to determine the appropriateness and the amount of those claims. Once claims are reviewed, creditors are paid according to the priorities in Ohio's liquidation statutes.

Pursuant to the law, the Liquidation Office pays administrative expenses associated with running the company first, policyholder claims including guaranty funds next followed by claims of the federal government, claims of employees of the insurance company and claims from general creditors.

# Addressing Major Issues Impacting Ohioans

## Stabilizing Medical Malpractice Insurance Rates

Medical liability rates for Ohio's top five medical malpractice insurers increased only 6.7% in 2005. This follows several years of 20 to 30 percent rate increases.

The Ohio Medical Malpractice Insurance Commission was chaired by the Director and was convened to examine the causes of and potential solutions to rapidly rising medical liability insurance rates. The Commission issued a final report (available on the Department's web site) in April 2005, following two years of extensive and detailed testimony. The report suggested to policymakers such market stabilization measures as the creation of a "patient safety center" to help prevent medical errors and the implementation of a pilot malpractice docket for medical malpractice lawsuits.

The Commission also recommended collection of lawsuit data, which is in effect and being administered by the Department. Medical malpractice non-economic damages were capped in 2003 by tort reform legislation as another measure to control costs. In addition, the Department heightened its regulatory scrutiny of companies and created a rule requiring medical malpractice rate filings to be made at least annually.

## Educating and Enrolling Beneficiaries into Medicare Prescription Drug Coverage

The Department – through its Ohio Senior Health Insurance Information Program (OSHIIP) – is serving as the state's lead agency for Medicare prescription drug (Part D) information and enrollment assistance. The initial enrollment period for Medicare prescription drug coverage runs November 15, 2005 to May 15, 2006 and all of Ohio's 1.8 million beneficiaries are eligible.

The Department has been conducting an extensive public outreach campaign including paid and earned media, the creation of informative brochures and helpful worksheets, the implementation of a comprehensive prescription drug web site located at [www.ohioinsurance.gov/prescriptiondrugs](http://www.ohioinsurance.gov/prescriptiondrugs), and holding statewide speaking engagements and educational and enrollment fairs.

OSHIIP, which has formed many Part D partnerships, has conducted hundreds of outreach events and handled thousands of telephone calls to help Ohioans understand Part D.

## Ensuring Affordable Health Care for Ohioans

Access to affordable health insurance remains a major issue at the Department. The Department has been investigating ways to provide less costly health insurance options to employers and has promoted legislation to improve the existing health care purchasing alliance statute and to provide consumers with health

procedure costs. The Department helped pass legislation that raised health maintenance corporation (HMO) deductible limits to be consistent with federal laws, encouraging more HMOs to offer Health Savings Accounts (HSAs) to Ohioans.

## Combating Insurance Fraud

The Department took measures to increase its ability to fight insurance fraud. The Investigative and Licensing Services Division was rearranged to create separate divisions of Fraud and Enforcement and Market Regulation and Licensing. The move provides the divisions with greater resources and access to the Director. The Department also began a comprehensive investigation of the insurance marketplace for violations of state insurance laws.

Additionally, the Department hosted a health care fraud seminar to discuss such important issues as overcoming common health care fraud legal defenses, problem billing codes, new fraud-fighting software and preparing and trying health care fraud cases.

In 2005, the Department opened 139 consumer insurance fraud cases. Fifty-six of those cases were referred for prosecution, an increase of 144% compared to 2004. A total of 240 misconduct actions were taken against insurance agents compared to 108 in 2004.

# Serving Ohio's Insurance Consumers

## Department Saved Consumers \$6.6 Million, Thousands Assisted

The Department's Consumer Services Division and Ohio Senior Health Insurance Information Program (OSHIIP) received more than 170,000 telephone calls and approximately 7,000 formal complaints, recovered more than \$6.6 million (through such means as claims reassessments), and conducted more than 1,000 outreach events for consumers and industry representatives.

## Patient Protection Act Saving Millions for Consumers

Ohio's Patient Protection Act, which allows qualified consumers to appeal the denial, reduction or termination of health care services by their health carrier, has saved Ohioans more than \$5.5 million since May 2000. In the 56 months since the program began, 2,401 cases have been evaluated through external independent review organizations and contract reviews. In 2005, 160 cases were reviewed and over \$820,000 in denied benefits were paid to consumers.

## Department Staff Help Hurricane Victims, Visit Ohio Fairs

Department staff helped Hurricane Katrina victims on site and at call centers, and distributed important insurance information to Ohioans at the State Fair and many county fairs.

## Monitoring the Conduct and Financial Performance of Insurers

The Department sanctioned insurers and collected \$1.3 million in penalties as a result of 42 targeted and desk examinations. The Department also significantly reduced the Department's "insurer watch-list" in 2005, indicating an improved outlook for overall industry solvency.

## Department Hosts Insurance Industry Summit

The Department hosted an insurance industry summit with Ohio and out-of-state insurance industry executives representing property and casualty, life, and health insurers, fraternal and trade organizations, and government to review pressing industry issues. Potential federal regulation, the ongoing modernization of state regulation, Ohio's role as a model regulatory state, and the Sarbanes-Oxley Act were all discussed.

## Maintaining a Strong and Competitive Market for Consumers and Insurers

Homeowners insurance rates offered by the state's top ten insurers rose less than one percent in 2005 while automobile insurance rates decreased 1.6 percent. Ohio is among the lowest premium states for both homeowners and auto, ranking 7th and 15th lowest respectively.

# Fire and Casualty Companies Summary Financial Information as of and for the year ended December 31, 2005
